COLLEGE REPORT (USPS 854-200)

June 1979 Volume 32, Number 6

MINIMUM GOAL TOPPED FOR PHYS ED CENTER

Special Gifts organization and Division Leaders are: 1st row, left to right: William Pickelner, Special Gifts Chairman, Nathan W. Quatt, '36, National Campaign Chairman, Dr. Frederick E. Blumer, President of the College, Robert E. Ruffner, '63, James H. Crowley, '57, and David Y. Beuster, '47. 2nd row, left to right: Morton Rauff, '41, Leland J. Calistry, '60, Fred A. Foulbrood, '66, Kenneth R. Brungard, '50, Lester F. Bower, Harry A. Staub, III, '63, Harold D. Herzhberger, Jr., '54, James E. Short and Dr. S. Terry Kraus.

At a Victory Dinner held on campus June 5 gifts and contributions for the physical education and recreation center totaled \$1,719,832, exceeding the minimum goal of \$1,700,000 set last fall. The Special Gifts phase of the Campaign in the local area also topped its announced goal of \$250,000 by \$31,424. Fourteen divisions under the leadership of William Pickelner worked diligently for one month to achieve these record-breaking totals for Lycoming College.

Included in these totals is a check for \$25,000 from Koppers Company Foundation presented by Lester I. Murray, vice president of the company and general manager of the Sprout-Waldron Division, on behalf of the three local divisions of Koppers: Sprout-Waldron, Lycoming Silica Sand Company and the Forest Products Division Susquehanna Plant in Monticore.

The members of the Board of Trustees and the Honorary Trustees of Lycoming College have given or pledged in excess of \$240,000.

GTE-SYLVANIA MEMORIAL GIFT

A. M. Serang, vice president and general manager of Sylvania Circuit Products Division, points to Main Entrance Vestibule named for Gordon L. Fullerton. Nathan W. Stuart, National Campaign Chairman and Trustee, looks on.

GTE-Sylvania, Inc. and General Telephone and Electronics Foundation presented their first check to Lycoming College recently as one-third of their \$50,000 memorial grant for the physical education and recreation center. They have chosen to name the main entrance vestibule in memory of the late Gordon L. Fullerton, an alumnus of Lycoming class of 1942, who started employment with Sylvania Electric on August 15, 1943, received several promotions including the position of vice president-operations for Seneca Falls, N.Y. and quickly became a leader in the electronics industry, and served as vice president of GTE. Gordon L. Fullerton had a distinguished career in business that brought distinction to GTE, his employer, and Lycoming College, his alma mater.

DICENSO-ELLISON FOUNDATION GRANT

The local DiCenso-Ellison Foundation established in April, 1951, by Alfred A. DiCenso and the late Robert L. Ellison has awarded a grant of \$25,000 for the new center, payable over five years. The foundation has supported the College since 1958 in various projects. The purpose of the DiCenso-Ellison Foundation is to assist needy and worthy individuals through support to local community welfare and higher education. President Blumer said, "This DiCenso-Ellison Foundation capital grant of \$25,000 exemplifies the kind of genuine philanthropic support which is needed to continue quality higher educational services within Lycoming County."

CAMPAIGN NOT OVER

All of the campaign leaders stressed that the fund drive did not end with the Victory Dinner. The facility, on which work has already begun, is expected to cost about \$3 million.

"We'll quit when we burn the mortgage," said

Out of the Past . . .

EDITOR'S NOTE Old Main is gone, razed in December, 1968, but its memory has been perpetuated by the restoration of three articles taken from the building before it was destroyed. Information on each artifact was compiled and written by Dale V. Bower, director of alumni affairs.

THE STOVE

Just before the razing of Old Main, this now restored Stove was found tucked away in a corner of the attic of that building. The College maintenance department painstakingly restored it to its original condition. It is believed that this was one of the stoves used to heat individual rooms in Old Main.

With the building of Eveland Hall in 1912, heat was then supplied from this new facility to Old Main and to Bradley Hall. An underground tunnel, large enough to walk through and containing the heat pipes, connected the buildings.

This stove is on temporary display in Long Hall until a permanent home on campus is determined.

THE WINDOW

During the demolition of Old Main, Robert L. Eddinger, director of buildings and grounds, discovered a stained glass window had been obscured by a false wall. With the help of his maintenance crew, the window was carefully removed and has recently been restored by the college maintenance department. The window had been a part of the original chapel located on the second floor of the center section.

It is believed that at one time there were several stained glass windows in this chapel, but that all the rest had been removed many years before and replaced with clear glass. This area of Old Main was used as an auditorium chapel for many years and a raised platform was located directly in front of the covered window. Later, this part of the building was converted into office space. Just prior to the demolition, it had served as the office of the Dean of the College. Since the walls were completely paneled inside, no one realized that a stained glass window was concealed in the wall.

C. L. Culler, to whom the window was dedicated, is listed in the 1877-1878 catalog of Williamsport Dickinson Seminary. His home residence is listed as West Milton, and he was a member of the Scientific Department. Since Mr. Culler is listed on the brass plaque as a Williamsport resident, it is possible that he was a member of the Culler family which owned and operated the Culler Chair Company. Many city residents remember the giant chair which they displayed on top of their factory.

It was located between the former Williamsport High School on West Third Street and the river.

The restored window is on temporary display in Long Hall until a permanent home on campus is determined.

THE BELL

When the demolition crew came to the campus to raze Old Main, its first assignment was to remove the Bell from the West Tower. As it was being lowered to the ground by a large crane, the cable broke, and the bell went crashing to the ground. Fortunately it was not damaged. It has been restored by the maintenance department of the College and placed on permanent display in Pennington Lounge of the Academic Center.

Old Main was constructed at three different times: the West wing in 1839, the East wing in 1850, and the six-story Central section joining the two wings in 1855. The 1839 West wing was only two stories high; the top two floors, with the bell tower, were added during the presidency of Dr. Thompson Mitchell --1860-1869.

It is not known whether this bell is an original bell from Old Main dating back to its beginning and was recast in 1881, or whether it is a bell made of new metal in 1881. This bell was cast at the foundry of Henry McShane & Co., Baltimore, Md. (29" diameter base, 16" diameter at top and 23" high). Judge Williams' History of Lycoming College states that repairs, costing \$13,000, were made to the Seminary in 1887. The placing of this bell in the tower could have occurred at that time.

The restoration and display of the Old Main Bell is a continuing reminder of the rich heritage of this institution. A bell has a timeless quality with the ability to express our deepest emotion. An old bell was once inscribed as follows:

*"I call the living, mourn the dead,
I tell when days and years are fled,
For grief and joy, for prayer and praise,
To Heaven my tuneful voice I raise."*

The nice thing about a college education is that it enables us to worry about things the world over, rather than just in our own back-yard.

Also to be contacted later this year will be the 80% of the alumni who live outside the local and county areas. 1949

MINUTES OF 50th REUNION - May 5, 1979. The 30-year reunion of the Class of 1949 was held on Alumni Day in room 205 of the Academic Center at 1:00 pm. The following members were in attendance: ANNANEPTA LIVINGSTONE FRICK, ANDY ZECHA, RAY GOODMAN STOVER, SHIRLEY GOETTEL HILL, MYRA HOLLAND HOUSEKNECHT, DOROTHY COHICK,

ROSENBERG, HARVEY KUHN, STANLEY ROSENBERG and ANDY LADY. Andy Lady was selected to be Class Chairman, Shirley Goettel Hill to be Class Secretary and Harvey Kuhns and Myra Holland Houseknecht to be Class Agents. A suggestion was made that area signs indicating directions to Lycoming College should be erected. Anyone entering the city who is unfamiliar with the area needs directional signs to help them locate the college. It was felt that more advanced notices should be sent to members of reuniting classes. Some alumni did not know in time and made other plans for the day. The class members present expressed the feeling that the five-year cycle need not be observed for a schedule of reunion. There were those who could not come for various reasons but would like to come in "off" years to meet old friends. Therefore tentative plans were made for another reunion next Alumni Day. The projected date will be May 3, 1980. Some from other classes might be interested in joining us. A block of rooms in the dorms for overnight might be reserved. Possibly a separate dinner for our group could be arranged. Friday night, May 2nd was suggested. The private dining room at the College might be reserved. Andy Lady offered his home as an alternate. A letter will be sent in a special mailing next year to all members of our class regarding the above mentioned reunion to find out how many would be interested and what their desires would be. Andy Zecha is interested in promoting activities of Lycoming alumni in the area of Washington, DC. This would be in conjunction with the alumni office. A special class project was discussed. This was the consideration of the establishment of a scholarship fund from the Class of 1949. Some restrictions on the recipient should be established. Harvey Kuhns, Myra Houseknecht and Anna Netta Frick were appointed to consider the possibilities, restrictions, limitations, etc. This matter might be mentioned in the letter which will be sent to all class members regarding next year's reunion. Respectfully submitted, Shirley Hill, Secretary.
